Recommendation for Rami Segman - tour guide

In November 2019, 5 guests from Kulik & Soffa from Singapore, arrived in Israel after a week-long visit to Jordan.

As a guide in the past, Rami Segman has accompanied the company's guests several times when they wanted to tour the country and I received excellent feedback on it. This time too I recommended the guests to take him as a guide.

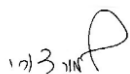

Rami Segman welcomed them at the Allenby Bridge, and accompanied them from the time they entered the country from Jordan until their departure, 5 days later.

During these days, Rami toured the length and breadth of our country with them. At the request of our guests, he visited with them the holy places of Christianity and Judaism (Jerusalem, Nazareth, Tiberias), Acre and the big city (Tel Aviv), and gave them a taste of Israel's diverse cuisine. All this while taking care of every little detail to the complete satisfaction of our guests.

I joined one day trip in Nazareth and Acre, and I really enjoyed Rami's mastery of many years of history, explanations of the various religions spiced with interesting stories, knowledge of the country and all this in fluent English.

I am Highly recommended,

Regards,

Dr. Limor Zuri
